Worksheet 2: Science Around Us – Scrapbook

Theme: Science in Daily Life

Instructions: Use this page to plan your scrapbook. Choose examples from daily life and write a few lines for each. Add drawings, clippings, or photos if you like!

1. Kitchen Science (e.g., fermentation, boiling, freezing) Example: Boiling water to make pasta Explanation: Water boils at 100°C . Steam rises as heat causes molecules to move faster and change to gas. Drawing/Photo:

2. Transport Science (e.g., friction, motion) Example: Bicycle brakes Explanation: Brake pads create friction against the wheel, slowing down the motion of the bike. Drawing/Photo:
